YOUTH OPINION SURVEY

February 22 – March 28, 2021
Detailed Methodology

- The survey was conducted by Info Sapiens on behalf of the International Research and Exchanges Board (IREX). Survey data was analyzed and confirmed by the International Republican Institute’s Center for Insights in Survey Research (CISR).
- The survey was conducted throughout Ukraine from February 22 to March 28, 2021. The methodology used Computer Assisted Telephone Interviews (CATI) from a random sample (random digit dialing) of mobile phone numbers with oblast quotas.
- The total national sample consists of 510 respondents who are residents of Ukraine aged 10-12, 510 respondents aged 13-15 and 1483 respondents aged 16-35; and oversamples of an additional 100 respondents aged 16-35 in each of the following oblasts: Ivano-Frankivsk, Rivne, Odesa, Kyiv, Kherson and Kharkiv for a total of 600 oversample interviews. In total, the national interviews and the oversample interviews combined yield the following samples sizes for these oblasts: Ivano-Frankivsk (n=145), Rivne (n=150), Odesa (n=164), Kyiv (n=251), Kherson (n=128), and Kharkiv (n=178).
- Data for the Rivne regional disaggregated findings was collected from May 5 to May 6, several weeks after the conclusion of the main fieldwork period. The Rivne data used for the national level analysis is from the main fieldwork period.
- The national sample is representative of the population of these age groups in terms of gender, age, oblast and settlement size according to State Statistics Service of Ukraine data as of January 1, 2019.
- The theoretical margin of error for the national level samples does not exceed
  - 4.4% for youth aged 10-12 and youth aged 13-15.
  - 2.6% for youth aged 16-35.
- The overall response rate is 17 percent.
- Charts and graphs may not add up to 100 percent due to rounding.
- This study was made possible by the generous support of the American people through the United States Agency for International Development (USAID).
Ethical Research Protections

• Verbal informed consent has been received from all respondents. For the category of 10-15 years old, the youngest category within the survey, consent has been received from parents or legal guardians. A consent form included information on the survey topic, confidentiality, voluntary participation, rights to not answer some or any questions and refusal to participate at any moment.

• Info Sapiens team members have experience surveying under-aged people since 2006. All interviewers participated in briefing sessions before the survey, where they were trained to conduct interviews with minors.

• Info Sapiens comply with its policies on child protection during participation in research activities, national legislation and European Society for Opinion and Marketing Research guidelines. An external expert in conducting surveys with children, Dr. Sergiy Bogdanov (Ph.D.), a psychologist, was involved in data collection tools development.

• All interviews were conducted using CATI (Computer-assisted telephone interviewing) method. Info Sapiens have not stored personal information on participants.
Political and Social Participation
In general, would you say that our country is heading in the right direction or in the wrong direction?

*Respondents aged 10 – 12 were asked the follow-up question of “Would you rather…” after the initial question: “By the time you become an adult, would you like to move from the place where you live now, if the opportunity arises?”
Why would you like to move?

Among those who are considering moving from where they currently live in the next 5 years, n=282

- There is nothing to do in my hometown: 36%
- I do not like my school: 11%
- See the world / new places / desire to travel: 11%
- Other: 8%
- More opportunities / prospects: 6%
- Better living conditions (economic / environmental): 4%
- Desire to move without specifying the reason: 4%
- Lack of (well-paid) work in my locality: 3%
- I do not have any friends: 2%
- Difficult to answer / No answer: 16%

*Multiple responses possible*
Why would you like to move from where you currently live?

Among those who are considering moving from where they currently live in the next 5 years, n=254

- Lack of educational opportunities: 32%
- Lack of economic opportunities: 27%
- I do not see any future where I currently live: 26%
- Poor access to public resources (health, communications, infrastructure): 12%
- Lack of civic, social or political opportunities: 7%
- A better standard of living in another country: 5%
- More opportunities / prospects: 5%
- See the world / new places / desire to travel: 4%
- Lack of work in my locality: 4%
- In another country there are different people: 1%
- Due to family circumstances (someone from the family lives there): 1%
- Other: 7%
- Difficult to answer / No answer: 5%

*Multiple responses possible*
Which of the following factors where you currently live most influence your decision?

Among those who are considering moving from where they currently live in the next 5 years, n=596

- Lack of economic opportunities: 62%
- I do not see any future where I live: 28%
- Poor access to public resources, such as health, communications, or infrastructure: 28%
- Low public safety: 18%
- Lack of educational opportunities: 16%
- Lack of a sense of belonging: 6%
- Lack of civic, social or political opportunities: 4%
- Other: For family reasons: 1%
- Other: There are no prospects at all: 1%
- Other: 5%
- Difficult to answer / No answer: 1%

*Multiple responses possible*
Which of the following factors where you currently live most influence your decision?

Settlement size

Among those who are considering moving from where they currently live in the next 5 years, n=596

- Lack of educational opportunities
- Lack of economic opportunities
- Low public safety
- Lack of civic, social or political opportunities
- Lack of sense of belonging
- Poor access to public resources, such as health, communications, or infrastructure
- I do not see any future where I live
- Other

*Due to small n, results should be interpreted with caution.
