### Hussein Murad, Peace Building

#### Leaders for Democracy Fellowship (LDF) 2016

Hussein Murad from Iraq speaks about the atrocities of violent extremist groups on Iraq and Mosul city specifically. Millions of youth and students suffered from displacement and lack of access to their educational institutions as a result of the horrible war and spread of terrorism. He decided to find solutions for such repercussions by focusing on the educational pillar within refugees' camps and displaced population. Hussein aspires to get this award to spread hope among his community beneficiaries and share his experience and initiative model as a great model for countering violent extremism by using education as a great weapon.
