

USAID
FROM THE AMERICAN PEOPLE

Ma3an is a five-year resilience and community empowerment project in Tunisia, implemented by Tunisian and international partners in 30 communities in 15 governorates.

The Goal of Ma3an is **to increase the capacity of Tunisian communities to withstand political, social and economic challenges and identify opportunities**, through:

Objective 1

Strengthened community resilience

Objective 2

Mitigated community vulnerabilities

Objective 3

Tunisian partners sustain the model

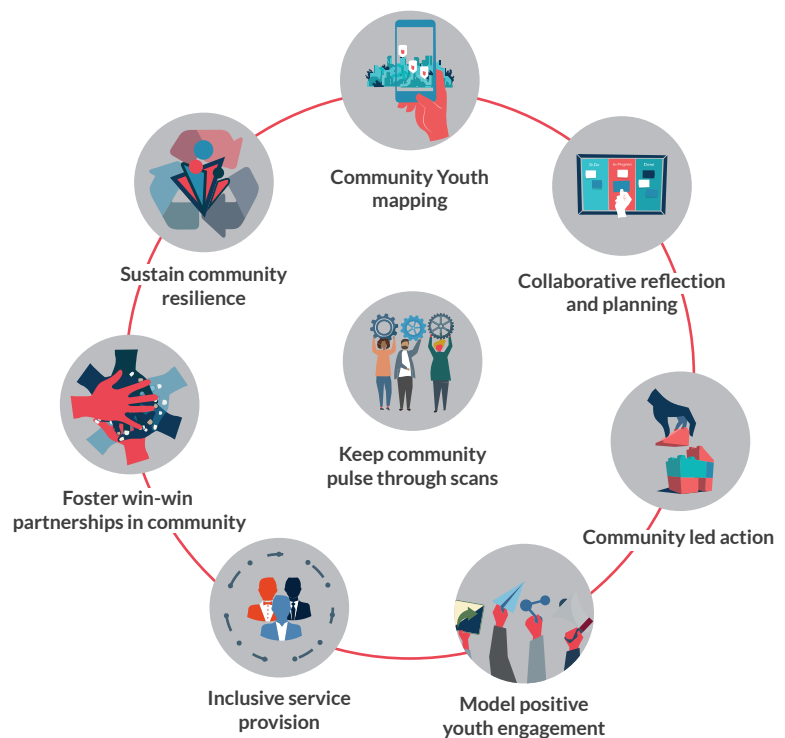

Ma3an will:

1 Empower marginalized youth, men and women to identify and reduce community-specific vulnerabilities.

2 Support and engage local institutions, community service providers and civil society actors.

3 Harness peer to peer mentoring, social networks and communication to engage youth.

4 Catalyze public and private sector resources to create a sustainable foundation for social cohesion and resilience, at local and national level.
